The Statistical Analysis Center

The Wisconsin Statistical Analysis Center is a program of the Wisconsin Council on Criminal Justice. The Center collects, analyzes, interprets and disseminates criminal justice data in Wisconsin.

In addition to the Uniform Crime Reporting Program, the Center currently operates two on-going statewide data collection programs. The Jail Information System (JIS) collects and analyzes jail data from participating counties in Wisconsin. The Juvenile Detention Information System (JDIS) collects and analyzes information on secure detention of juveniles in the state.

In addition to operating these programs, the Center also provides technical assistance to local criminal justice agencies. Further, it provides state and local government with access to federal criminal justice statistical information. The Statistical Analysis Center also promotes the coordination and development of criminal justice statistical systems in Wisconsin.

Acknowledgements

Wisconsin Crime and Arrests - 1985 is the product of information provided by a variety of agencies. Without the excellent cooperation of the people in these agencies, the publication would not have been possible. The Wisconsin Council on Criminal Justice gratefully acknowledges the assistance of Mr. William Walluks, Wisconsin Department of Justice, Crime Information Bureau; Mr. Howard Mead, University of Wisconsin - Madison Academic Computing Center; the Federal Bureau of Investigation, Uniform Crime Reporting Program; and especially the administrators of local law enforcement agencies and their staffs, whose efforts made the data available.

Wisconsin Crime and Arrests - 1985 is a publication of the Wisconsin Statistical Analysis Center, a program of the Wisconsin Council on Criminal Justice. The Statistical Analysis Center was funded for 1985, in part, by a grant from the U. S. Department of Justice, Bureau of Justice Statistics.

Crime and Arrests in Wisconsin - 1985

Introduction

This report, prepared by the Wisconsin Statistical Analysis Center (SAC), presents data on crime and arrests in Wisconsin during 1985. From 1970 through 1981 the state Uniform Crime Reporting (UCR) Program, operated by the Crime Information Bureau of the Wisconsin Department of Justice (DOJ), collected, compiled, and reported crime and arrest data for Wisconsin. Beginning in 1971, DOJ also provided data to the national UCR system, a program of the Federal Bureau of Investigation (FBI). Effective December 31, 1981, the state program operated by DOJ was discontinued due to budget reductions. The 1981 data collected by DOJ were transmitted directly to the FBI, and the 1981 Wisconsin Crime and Arrests report, prepared by SAC, was based for the most part on information provided to SAC by the FBI. In 1982 and again in 1983 Wisconsin law enforcement agencies transmitted their UCR data directly to the FBI, but in addition provided copies of the principal offense and arrest forms to the Statistical Analysis Center. As of 1984, Wisconsin resumed its status as part of the national UCR system. As of 1984, Wisconsin law enforcement agencies provide complete UCR data to SAC, which in turn transmits the data to the FBI via computer tape.

The National UCR Program

The national Uniform Crime Reporting Program was initiated in 1930 by the International Association of Chiefs of Police (IACP). After soliciting input from law enforcement agencies throughout the country, an IACP committee developed uniform crime definitions and reporting procedures which could be used by law enforcement agencies in every state. The FBI was designated as the national clearinghouse for UCR data. The Committee on Uniform Crime Records of the IACP continues to serve the national program in an advisory capacity. In 1956, the National Sheriff's Association also established a Committee on Uniform Crime Reports to act as an advisory body to the program. The FBI regularly receives data on reported crime and arrests from law enforcement agencies throughout the country. The data are provided either by individual law enforcement agencies or by state UCR programs which collect and compile data for their states and convey the data to the FBI. From these data the FBI publishes its annual report, Crime in the United States.

The Wisconsin UCR Program

The FBI recognized the Wisconsin Council on Criminal Justice (WCCJ) as the administrator of the Wisconsin State Uniform Crime Reporting Program effective January 1, 1984. As indicated above, the original Wisconsin UCR program, operated by DOJ, was discontinued in 1981. The program operated by DOJ from 1970 through 1981 required that all law enforcement agencies submit UCR data either directly or through the county sheriff's office. It also required that DOJ submit the prescribed data to the FBI. DOJ expanded the national UCR program's classifications to collect more detailed and appropriate data on Wisconsin crime and arrests. From the statewide UCR data, DOJ published its annual report Wisconsin Crime and Arrests, as well as quarterly, semi-annual, and other summary reports.

In November 1981, the Wisconsin Council on Criminal Justice (WCCJ) received a grant from the United States Department of Justice, Bureau of Justice Statistics, to develop the Wisconsin Statistical Analysis Center. The SAC was mandated by executive order to collect and analyze criminal justice data, produce statistical reports on crime and the justice system, and promote development of criminal justice information systems. From 1981 through 1983, SAC assumed a substantial number of the functions of the state UCR program to meet the information needs of state and local criminal justice

decision-makers, elected officials and interested citizens. As of January 1984, Wisconsin once again has had a State UCR Program officially recognized by the FBI and part of the national system of state UCR programs.

Issues in Comparison of this Report with Earlier Reports

Care should be exercised in making comparisons of the data in this report with the data contained in previous annual reports. Adjustments may be required for the following reasons:

- Shifting of a law enforcement agency from one population category to another based on annual re-estimation of the jurisdiction's population.

- On occasion, the Federal Government designates an additional Wisconsin county as being included in a Standard Metropolitan Statistical Area. This would shift a Sheriff's Office from the Rural Areas category to the Suburban Sheriff's group.

- Populations are estimated for non-census years. Rates for 1985 are calculated using 1980 census data, updated with 1985 estimates published by the Demographic Services Center, Wisconsin Department of Administration.

- County totals shown in Tables 1-9 of this report are estimates which compensate for instances of missing data when appropriate. In the 1981 Wisconsin Crime and Arrests report, these totals were actual totals of data reported, even when data were missing. Thus, caution should be exercised in comparing county totals of 1981 with subsequent years.

- Both adult and juvenile 1981 arrest data for Milwaukee published in the 1981 Wisconsin Crime and Arrests have been revised. Readers interested in comparing 1981 Milwaukee data with other years are urged to contact SAC.

An Overview of 1984 and 1985 Crime and Arrests in Wisconsin

The following tables and maps present an overview of 1984 and 1985 crime and arrests in Wisconsin. The first table shows that violent offenses have increased by 5.8 percent from 1984, while property offenses have decreased by 4.3 percent. The overall increase in violent offenses is comprised of individual increases in each violent offense. Murder increased by 16.2 percent, from 117 to 136. Rape increased by 14.8 percent, from 771 to 885. Robbery increased by 5.6 percent, from 3,167 to 3,344, and aggravated assault increased by 4.4 percent, from 5,312 to 5,546. It should be noted that violent offenses constituted only 5.2 percent of Index Offenses for Wisconsin in 1985.

Property crimes comprise the balance of the Crime Index. The overall decrease in property crimes for 1984-1985 is comprised of individual decreases in each property offense. Burglary decreased by 4.7 percent, from 39,751 to 37,895. Theft decreased by 4.0 percent, from 138,445 to 132,878. Motor vehicle theft decreased by 5.6 percent, from 11,242 to 10,615, and arson decreased by 6.0 percent, from 1,130 to 1,062.

The next two tables present a comparison of arrests, both adult and juvenile, in 1984 and 1985. Adult arrests for total Index Offenses increased by 4.1 percent, while juvenile arrests for total Index Offenses increased by 2.4 percent. Total arrests for Index Offenses, combining both adult and juvenile, increased by 3.3 percent. Juvenile arrests constituted 48 percent of all arrests for Index Offenses in 1985. Total arrests, including those for non-Index crimes, have risen by about the same amount for both adults and juveniles. Total adult arrests rose by 2.5 percent, from 186,186 to 190,864, while total juvenile arrests rose by 2.7 percent, from 87,349 to 89,687.

Juvenile arrests comprise 32 percent of all arrests for 1985, but they comprise 48.4 percent of arrests for Index Offenses. Among the Index Offenses, juvenile arrests comprise 27.4 percent of all arrests for violent offenses and 50.6 percent of all arrests for property offenses.

Following the set of three tables are two maps showing rates of violent and property crime in each Wisconsin county for 1984. On each map, counties are ranked in four groups according to rate of offenses per 100,000 population. The lowest quarter of the counties are shown in white, as indicated on the map legends, while the highest quarter are shown with dark diagonal hatching. The statewide rate, shown on each map, is based on the statewide number of offenses and population. This rate is within the fourth quartile because most of the highest crime rates are in those counties with largest populations.

An analysis of total Index Offenses, violent offenses, property offenses, and each separate offense appears in the following section of this report. Ten-year trends in offenses, clearances, and arrest ratios are then presented, followed by data on law enforcement officers killed and assaulted.

WISCONSIN
CRIME CLOCK¹
1985

¹ The crime clock should be viewed with caution. Since it is the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of Index offense occurrence. This method of display does not imply a regularity in the commission of Index offenses; rather it shows the ratios of crimes to fixed periods of time.

ESTIMATED INDEX OFFENSES KNOWN TO WISCONSIN LAW ENFORCEMENT AGENCIES,
1984 and 1985²

<u>Offense</u>	<u>1984³</u>	<u>1985</u>	<u>Percent Change</u>
Murder	117	136	16.2
Forcible Rape	771	885	14.8
Robbery	3,167	3,344	5.6
Aggravated Assault	5,312	5,546	4.4
TOTAL VIOLENT OFFENSES	9,367	9,912	5.8
Burglary	39,751	37,895	- 4.7
Theft	138,445	132,878	- 4.0
Motor Vehicle Theft	11,242	10,615	- 5.6
Arson	1,130	1,062	- 6.0
TOTAL PROPERTY OFFENSES	190,567	182,450	- 4.3
TOTAL INDEX OFFENSES	199,934	192,362	- 3.8

² Information in this and subsequent tables are estimates. Estimated data are usually 1.3 percent greater than reported data. Data may not sum to totals due to rounding.

³ Wisconsin 1984 data in this report may differ slightly from information published in Wisconsin Crime and Arrests, 1984 because of revised data submitted by local jurisdictions.

ESTIMATED ADULT ARRESTS FOR INDEX OFFENSES KNOWN TO
WISCONSIN LAW ENFORCEMENT AGENCIES, 1984 TO 1985⁴

<u>Offense</u>	<u>1984</u>	<u>1985</u>	<u>Percent Change</u>
Murder	118	154	30.5

CRIME INDEX OFFENSES

Definition:¹ Crime Index Offenses are murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault, burglary, theft, motor vehicle theft, and arson. Attempts are included (an attempted murder is classified as an aggravated assault).

1985 Summary Analysis

- There were an estimated 192,362 Crime Index Offenses reported during 1985, a 3.8 percent decrease from 1984.
- One Index Offense was reported approximately every two minutes, 44 seconds during 1985.
- The Crime Index Offense rate per 100,000 Wisconsin residents was 4.025.2 in 1985, a decrease of 3.8 percent from the 1984 rate of 4,186.3 per 100,000.
- The 1985 rate of 4,025.2 per 100,000 is approximately 23 percent less than the 1985 rate of 5,256.8 per 100,000 residents for the nation.
- In terms of the population groupings of Wisconsin jurisdictions, the larger the population category, the higher the rate of Index Offenses.
- Total Index Offenses have increased by 4.5 percent between 1975 and 1985.
- An estimated total of 56,005 persons were arrested for Index Offenses in 1985. Of these, 51.6 percent were adults.
- Overall, 24 percent of Index Offenses were cleared in 1985. This rate varied widely, however, from 85.2 percent for murder to 15.6 percent for burglary. Clearances solely involving juveniles comprised 37.1 percent of all clearances for Index Offenses in 1985.

¹ Footnotes for this section may be found at the end of this section, page 75.

Total Index Offense Summary: 1984 and 1985 ²

<u>Year</u>	<u>Number of Estimated Offenses</u>	<u>Rate per 100,000 Population</u>

JUVENILE PERCENT OF TOTAL CLEARANCES BY OFFENSE CATEGORY

VIOLENT OFFENSES

Definition:¹ Four Crime Index Offenses involve face-to-face confrontation between victim and perpetrator, and are referred to as violent offenses. These are murder and nonnegligent manslaughter, forcible rape, robbery and aggravated assault.

1985 Summary Analysis

- There were an estimated 9,912 violent offenses reported during 1985, a 5.8 percent increase from 1984.
- Violent Index Offenses accounted for 5.2 percent of the total Crime Index in 1985.
- Approximately one violent offense was reported every 53 minutes during 1985.
- The rate of occurrence for violent offenses in 1985 was 207.4 per 100,000 Wisconsin residents. This figure represents an increase of 5.8 percent from the 1984 rate of 196.1 per 100,000.
- The 1985 rate of 207.4 per 100,000 is approximately 63 percent less than the 1985 rate of 556.0 per 100,000 residents for the nation.
- The 1985 violent offense rate was positively related to the size of the population group.
- Violent Index Offenses have increased 41.7 percent between 1975 and 1985.
- An estimated total of 5,446 persons were arrested for violent offenses in 1985. Approximately 73 percent of 1985 arrests were adults and over 43 percent of those arrested were Black.
- Overall, 53.5 percent of violent offenses were cleared in 1985, compared to a 59.7 clearance rate in 1984. Clearances solely involving juveniles comprised 18.4 percent of all violent offense clearances in 1985.

Violent Offense Summary: 1984 and 1985²

<u>Year</u>	<u>Number of Estimated Offenses</u>	<u>Rate per 100,000 Population</u>
1984	9,367	196.1
1985	9,912	207.4
Percent Change	+ 5.8	+ 5.8

VIOLENT OFFENSE RATE DEPICTED BY POPULATION GROUP *

* NOTE: POPULATION GROUPS BY NUMBER ARE DEFINED IN THE FOLLOWING TABLE.

Violent Offense Rates by Population Group³

Population Group		1984 Rate per 100,000 Population	1985 Rate per 100,000 Population	1985 Estimated Violent Offenses	Percent Change in Rate: 1984 - 1985

Other	Adults	9	0.2
	Juveniles	2	0.0
Total		5,446	100.1

Violent Offense Clearance Rates: 1984 and 1985

Year	Estimated Offenses	Percent Cleared - Total	Percent of Clearances Involving Only Juveniles
1984	9,367	59.7	18.9
1985	9,912	53.5	18.4

ARREST VOLUME FOR VIOLENT OFFENSES ADULT VS. JUVENILE

PROPERTY OFFENSES

Definition: ¹ Four Crime Index Offenses do not involve face-to-face confrontation between victim and perpetrator, and are referred to as property offenses. These offenses are burglary, theft, motor vehicle theft, and arson.

1985 Summary Analysis

- There were an estimated 182,450 property offenses reported in 1985, a 4.3 percent decrease from 1984.
- Property Index Offenses accounted for 94.8 percent of the total Crime Index in 1985.
- Approximately one property offense was reported every two minutes, 52 seconds in Wisconsin during 1985.
- The rate of occurrence for property offenses in 1985 was 3,817.7 per 100,00 Wisconsin residents. This figure represents a decrease of 4.3 percent from the corresponding 1984 rate of 3,990.3 per 100,000.
- The 1985 rate of 3,817.7 per 100,000 is approximately 19 percent less than the 1985 rate of 4,700.8 per 100,000 residents for the nation.
- Property offense rates decreased from 1984 to 1985 for every Wisconsin population group.
- Property Index Offenses have increased three percent between 1975 and 1985.
- An estimated total of 50,559 arrests were made for property offenses in 1985. Approximately 51 percent of those arrested were juveniles and nearly 77 percent of those arrested were White.
- Overall, 22.4 percent of property offenses were cleared in 1985, compared to a 21.6 percent clearance rate in 1984. Clearances solely involving juveniles comprised 39.5 percent of all clearances for property offenses in 1985.

Property Offense Summary: 1984 and 1985²

(

MURDER

Definition:¹ Murder and nonnegligent manslaughter are the willful (nonnegligent) killing of one human being by another. The classification of this offense, as for all other Crime Index Offenses, is based on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body. Not included in the count for this offense classification are deaths caused by negligence, suicide, or accident; justifiable homicides, which are the killings of felons by law enforcement officers in the line of duty or by private citizens during commission of the felony; and attempts to murder or assaults to murder, which are classified as aggravated assaults.

1985 Summary Analysis

- There were an estimated 136 murders reported in 1985, a 16.2 percent increase from 1984.
- Murder accounted for 0.1 percent of the total Crime Index and 1.4 percent of all violent Index Offenses.
- Approximately one murder was reported every 2.7 days during 1985.
- The 1985 murder rate was 2.8 per 100,000 Wisconsin residents compared to 2.5 per 100,000 in 1984.
- The 1985 rate of 2.8 per 100,000 Wisconsin residents was approximately 65 percent less than the 1985 rate of 7.9 per 100,000 residents for the nation.
- The murder rate for jurisdictions over 250,000 in population increased by over 50 percent in 1985.
- The volume of Wisconsin murders has decreased 11.7 percent from 1975 to 1985.
- Firearms were involved in nearly 60 percent of 1985 murders, while knives were used in nearly 23 percent of all 1985 murders.
- In those cases where the relationship of victim and offender was determined, the parties were known to each other in approximately 83 percent of 1985 murders.
- The average age of murder victims was 32.9 years while the average age of known offenders was 29.1 years.
- An estimated 174 persons were arrested for murder in 1985 compared to 140 persons in 1984. Nearly 85 percent of those arrested in 1985 were adults and 54 percent were Black.
- The murder clearance rate was 85.2 percent in 1985. Clearances solely involving juveniles comprised 8.7 percent of all murder clearances.

SEXUAL ASSAULT AND FORCIBLE RAPE

Definition: Sexual assault is sexual contact or sexual intercourse with another person without consent of that person. Sexual assault is proscribed under Wisconsin statutes, but is not part of the Federal Uniform Crime Reporting (UCR) Program. Forcible rape is part of the Crime Index and as such is reported as part of the Federal UCR Program. It is the carnal knowledge of a female forcibly and against her will. Assaults or attempts to commit rape by force or threat of force are also included; however, statutory rape (without force) is not included.

1985 Summary Analysis

Information on sexual assault is vital to an understanding of crime trends in Wisconsin. Rape is not a legally meaningful category in this state. However, rape is part of the Crime Index and information on rape is vital to the national UCR program. Furthermore, many years of information on rape are available for Wisconsin, and current information on rape is valuable for purposes of comparison. A table comparing rapes in Wisconsin for 1984 and 1985 appears on the following page. Furthermore, jurisdiction-by-jurisdiction listings for rape appear in Tables 1 through 6 at the end of this publication. This listing of rape will continue in future years as long as rape continues to be part of the Crime Index.

Following are some highlights of the tables on the following three pages.

- Approximately 18 percent of all sexual assaults were rapes. For victims over 16, the proportion of rapes was twice as high, approximately 36 percent.
- Approximately 74 percent of all sexual assault victims were juveniles. Half of all victims were 14 years old or less; the average age for all victims was 15 years.
- Victim sex was 87 percent female, while offender sex was 97 percent male.
- Over 72 percent of all sexual assaults were committed by family members, friends and acquaintances, while 17 percent were committed by strangers. For those sexual assaults that are rapes, approximately 59 percent were committed by family members, friends and acquaintances, and 35 percent by strangers.

Forcible Rape Summary: 1984 and 1985²

<u>Year</u>	<u>Number of Estimated Offenses</u>	<u>Rate per 100,000 Population</u>
1984	771	16.4
1985	885	18.5
Percent Change	+ 14.8	+ 12.8

Sexual Assaults

Summary data on sexual assaults are presented in the following tables and graphs. In the table below, sexual assaults are shown by degree for all victims, and for victims 16 and over. This is because the two most severe degrees of assault, first and second, may be so classified either by the nature of the assault or the age of the victim. Looking only at assaults of victims age 16 and over shows the distribution of assaults by degree based solely on the nature of the assault, not victim age. Most sexual assaults, even first and second degree assaults, are not rapes in the Uniform Crime Reporting definition, and this also is shown in the table below.

Graphs showing the age and sex of victims and offenders, and relationship between victim and offender, are presented on the following two pages. Data are also presented on arrests, victim injury, and weapons used in the commission of sexual assaults.

Sexual Assaults by Degree, for All Victims and for Victims Age 16 and Over

<u>Degree</u>	<u>All Victims</u>				<u>Victims 16 and Over</u>

ROBBERY

Definition:¹ Robbery is the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or putting the victim in fear.

1985 Summary Analysis

- There were an estimated 3,344 robberies reported in 1985, a 5.6 percent increase from 1984.
- Robbery accounted for 1.7 percent of the total Crime Index and 33.7 percent of all violent Index Offenses.
- Approximately one robbery was reported every two hours, 37 minutes in 1985.
- The 1985 robbery rate was 70.0 per 100,000 Wisconsin residents, an increase of 5.7 percent from the 1984 rate of 66.2 per 100,000 residents.
- The 1985 robbery rate of 70.0 per 100,000 Wisconsin residents was approximately 66 percent less than the 1985 rate of 208.5 per 100,000 residents for the nation.
- The 1985 robbery rates increased in all categories of cities over 25,000 but decreased in all other population groups.
- The number of estimated robberies has decreased 1.1 percent from 1975 to 1985.
- The proportion of robberies involving the use of a firearm has declined from 40.4 percent in 1981 to 34.3 percent in 1985.
- While highway robberies accounted for 60 percent of all 1985 Wisconsin robberies, bank robberies showed the largest average amount stolen.
- An estimated total of 1,554 persons were arrested for robbery in 1985. Nearly 66 percent of those arrested were Black while nearly 43 percent were juveniles.
- The robbery clearance rate was 31.2 percent in 1985, a sharp decline from the 1984 clearance rate of 45.1 percent. Clearances solely involving juveniles comprised 24.8 percent of all robbery clearances.

AGGRAVATED ASSAULT

Definition:¹ Aggravated assault is an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Attempts are included, since it is not necessary that an injury results when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.

1985 Summary Analysis

- There were an estimated 5,546 aggravated assaults reported in 1985, a 4.4 percent increase from 1984.
- Aggravated assault accounted for 2.9 percent of the total Crime Index and 56.0 percent of all violent Index Offenses.
- Approximately one aggravated assault was reported every hour and 35 minutes during 1985.
- The 1985 aggravated assault rate was 116.0 per 100,000 Wisconsin residents. This figure represents an increase of 4.2 percent from the 1984 rate of 111.3 per 100,000 residents.
- The 1985 aggravated assault rate of 116.0 per 100,000 Wisconsin residents was approximately 62 percent less than the 1985 rate of 302.9 per 100,000 residents for the nation.
- The 1985 aggravated assault rate was positively related to the size of the population group of Wisconsin jurisdictions.
- The number of estimated aggravated assaults has increased 86.7 percent from 1975 to 1985.
- The proportion of aggravated assaults involving the use of a firearm has declined steadily from 26 percent in 1981 to 21 percent in 1985.
- An estimated total of 3,214 persons were arrested for aggravated assaults in 1985; approximately 79 percent of those arrested were adults.
- The 1985 total clearance rate for aggravated assault was 66.1 percent. Clearances solely involving juveniles comprised 17 percent of all aggravated assault clearances.

BURGLARY

Definition:¹ Burglary is defined as the unlawful entry of a structure to commit a felony or a theft. The use of force to gain entry is not required to classify an offense as burglary. Burglary in this program is categorized into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

1985 Summary Analysis

- There were an estimated 37,895 burglaries reported in 1985, a 4.7 percent decrease from 1984.
- Burglary accounted for 19.7 percent of the total Crime Index and 20.8 percent of all property Index Offenses.
- Approximately one burglary was reported every 14 minutes during 1985.
- The 1985 burglary rate was 792.9 per 100,000 Wisconsin residents. This figure represents a decrease of 4.8 percent from the 1984 rate of 832.7 per 100,000 residents.
- The 1985 burglary rate of 792.9 per 100,000 Wisconsin residents was approximately 38 percent less than the 1985 rate of 1,287.3 per 100,000 residents for the nation.
- The 1985 burglary rate decreased in all population categories except those police agencies in cities between 10,000 and 24,999 persons.
- The number of estimated burglaries has decreased 10.4 percent from 1975 to 1985.
- Patterns in the type of entry for burglaries were very similar from 1984 to 1985.
- Residential burglaries made up approximately 70 percent of all burglaries, both in terms of volume and value of property stolen.
- An estimated total of 7,595 persons were arrested for burglary in 1985. Nearly 79 percent of those arrested were White and 56 percent were juveniles.
- The burglary clearance rate was 15.6 percent in 1985, a figure somewhat smaller than the 1984 clearance rate of 16.7 percent. Clearances solely involving juveniles comprised 36.7 percent of all burglary clearances.

Burglary Summary: 1984 and 1985²

<u>Year</u>	<u>Number of Estimated Offenses</u>	<u>Rate per 100,000 Population</u>

THEFT

Definition:¹ Theft is the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc., in which no use of force, violence, or fraud occurs. In the Uniform Crime Reporting program, this crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft is also excluded from this category for crime reporting purposes inasmuch as it is a separate Crime Index Offense.

1985 Summary Analysis

- There were an estimated 132,878 thefts reported in 1985, a four percent decrease from 1984.
- Theft accounted for 69.1 percent of the total Crime Index and 72.8 percent of all property Index Offenses.
- One theft was reported approximately every four minutes during 1985.
- The 1985 theft rate was 2,780.4 per 100,000 Wisconsin residents, a decline of 4.1 percent from the 1984 rate of 2,898.8 per 100,000.
- The 1985 theft rate of 2,780.4 per 100,000 Wisconsin residents was approximately four percent less than the 1985 rate of 2,901.2 per 100,000 residents for the nation.
- The 1985 theft rate decreased by 12.4 percent in cities over 250,000.
- The number of estimated thefts has increased 8.2 percent from 1975 to 1985.
- The average value stolen per theft during 1985 was \$242.
- An estimated total of 40,003 persons were arrested for theft in 1985; nearly 32 percent of those arrested were female.
- The theft clearance rate was 24.3 percent in 1985, a slight increase from the 1984 figure of 22.9 percent. Clearances solely involving juveniles constituted 40 percent of all theft clearances.

Theft Summary: 1984 and 1985

MOTOR VEHICLE THEFT

Definition:¹ Motor vehicle theft is defined as the theft or attempted theft of a motor vehicle. This definition excludes the taking of a motor vehicle for temporary use by those persons having lawful access.

1985 Summary Analysis

- There were an estimated 10,615 motor vehicle thefts reported in 1985, a 5.6 percent decrease from 1984.
- Motor vehicle thefts accounted for 5.5 percent of the total Crime Index and 5.8 percent of all property Index Offenses.
- One motor vehicle theft was reported approximately every 49 minutes in 1985.
- The 1985 motor vehicle theft rate was 222.1 per 100,000 Wisconsin residents, a 5.6 percent decrease from the 1984 rate of 235.3 per 100,000.
- The 1985 motor vehicle theft rate of 222.1 per 100,000 Wisconsin residents was approximately 52 percent less than the 1985 rate of 462.0 per 100,000 residents for the nation.
- The motor vehicle theft rate in 1985 was positively related to the size of the population group of Wisconsin jurisdictions.
- The number of estimated motor vehicle thefts has declined four percent from 1975 to 1985.
- The proportion of motor vehicle thefts involving an auto has increased from 68 percent in 1981 to 74 percent in 1985.
- Approximately 80 percent of the value of stolen motor vehicles was recovered during 1985.
- An estimated total of 2,539 persons were arrested for motor vehicle theft during 1985; 65 percent of those arrested were juveniles.
- The motor vehicle theft clearance rate was 22.2 percent in 1985. Clearances solely involving juveniles comprised 37.7 percent of all motor vehicle theft clearances.

Motor Vehicle Theft Summary: 1984 and 1985

ARSON

Definition:¹ Arson is defined as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Only fires determined through investigation to have been willfully or maliciously set are classified as arsons. Fires of suspicious or unknown origins are excluded.

1985 Summary Analysis

- There were an estimated 1,062 arsons reported in 1985, a six percent decrease from 1984.
- Arson accounted for 0.6 percent of the total Crime Index and 0.6 percent of all property Index Offenses.
- One arson was reported approximately every eight hours, 15 minutes during 1985.
- The 1985 arson rate was 22.2 per 100,000 Wisconsin residents, a 5.9 percent decrease from the 1984 rate of 23.6 per 100,000 residents.
- The 1985 arson rate of 22.2 per 100,000 Wisconsin residents was approximately 56 percent less than the 1985 rate of 50.3 per 100,000 residents for the nation.
- The arson rate decreased sharply in cities under 10,000 in population.
- The number of estimated arsons had declined 27.8 percent from 1979 to 1985.
- An estimated total of 422 persons were arrested for arson in 1985. Over 83 percent of those arrested were White and 66 percent were juveniles.
- The arson clearance rate was 32.5 percent in 1985, a slight increase from the 30.2 percent cleared in 1984. Clearances solely involving juveniles comprised 56.6 percent of all arson clearances.

FOOTNOTES

- 1 All Index Offense definitions are those used by the National Uniform Crime Reporting Program.
- 2 Figures in this and subsequent tables are estimated. Figures may not add exactly due to rounding.
- 3 Data from two jurisdictions (the Wisconsin State Patrol and the Department of Natural Resources) are excluded from this table.
- 4 Reported offenses from the various campuses of the University of Wisconsin are included in the population group of the city where the campus is located.
- 5 "Suburban Sheriffs' Departments" included the following counties: Brown, Calumet, Chippewa, Dane, Douglas, Eau Claire, Kenosha, La Crosse, Marathon, Milwaukee, Outagamie, Ozaukee, Racine, Rock, St. Croix, Sheboygan, Washington, Waukesha and Winnebago.
- 6 The number of murder offenders in this graph (157) only includes those persons identified at the time that the murder came to the attention of a law enforcement agency.
- 7 Multiple offenders are excluded from this table.
- 8 Highway robberies are those which occur on a street, alley, or roadway.
- 9 Personal weapons include hands, fists, feet, etc.

Arrest Summary for Selected Non-Index Offenses

Simple Assault

Definition: Simple assault is an assault or an attempted assault where no weapon is used and which does not result in serious or aggravated injury to the victim.

- There were an estimated 8,116 simple assault arrests in 1985, representing a nine percent increase when compared to 1984.
- Of the total, 68 percent were adults and 32 percent were juveniles.
- Males accounted for 84 percent and females 16 percent of the persons arrested for simple assault.

Vandalism

Definition: Vandalism is defined as the willful destruction, injury, disfigurement, or defacement of property without consent of the owner or persons having custody or control.

- There were an estimated 9,821 vandalism arrests in 1985, a decrease of one percent compared to 1984.
- Adults accounted for 52 percent and juveniles 48 percent of persons arrested for vandalism in 1985.
- Males accounted for 90 percent and females ten percent of the arrests.

Weapons Violations

Definition: These offenses include all the violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers, and attempts.

- There were an estimated 5,363 arrests reported for weapons violations, a two percent decrease compared to 1984.
- Of the total, 69 percent were adults and 31 percent were juveniles.
- Males accounted for 90 percent and females ten percent of those arrested.

Drug Abuse Violations

Definition: Drug abuse violations are defined as the unlawful sale/manufacture, possession/use of the narcotics and drugs listed below:

- a. Opium or Cocaine and their derivatives (morphine, heroin, codeine).
 - b. Marijuana, hashish, etc.
 - c. Synthetic narcotics — manufactured narcotics which can cause true drug addiction (demerol, methadones).
 - d. Other — dangerous non-narcotic drugs (amphetamines, barbituates, hallucinogens).
- There were an estimated 9,656 arrests reported for drug abuse violations, a five percent decrease compared to 1984.
 - Adults accounted for 81 percent and juveniles 19 percent of the arrests.
 - Males accounted for 87 percent of the arrests, while females accounted for the remaining 13 percent.
 - Arrests for possession/use of drugs accounted for 78 percent of the arrests; the remaining 22 percent were for the sale/manufacture of drugs.

Driving Under the Influence

Definition: The offense of driving under the influence is defined as the driving or operating of any motor vehicle while drunk or under the influence of alcohol or narcotics.

- There were an estimated 38,463 arrests reported for driving under the influence in 1985, an increase of two percent compared to 1984.
- Ninety-eight percent of the arrests were adults and only two percent were juveniles.
- Males accounted for 87 percent of the arrests, while females accounted for the remaining 13 percent.

Disorderly Conduct

Definition: In this category are placed all charges of committing a breach of the peace (disorderly person).

- There were an estimated 33,669 arrests for disorderly conduct in 1985, a decrease of one percent compared to 1984.
- Adults accounted for 74 percent of the arrests, while juveniles accounted for the remaining 26 percent.

- Males accounted for 85 percent of the arrests, while females accounted for the remaining 15 percent.

Liquor Laws

Definition: Included in this category are state or local liquor law violations, with the exception of "driving while under the influence."

- There were an estimated 24,181 arrests reported for liquor law violations in 1985, an increase of 19 percent compared to 1984.
- Juveniles were responsible for 51 percent of the arrests, while the remaining 49 percent were adults.
- Males accounted for 71 percent of the liquor law arrests, while females accounted for the remaining 29 percent.

Curfew Violations

Definition: In this category are juvenile arrests made for violations of local curfew ordinances.

- There were an estimated 5,861 arrests reported for curfew violations in 1985, this represents a one percent increase compared to 1984.
- Males represented 76 percent and females 24 percent of those arrested.

Runaways

Definition: This category is limited to juveniles taken into protective custody, under provisions of local statutes, as runaways.

- There were an estimated 9,542 runaway arrests reported in 1985, a five percent increase compared to 1984.
- Females accounted for 52 percent and males accounted for 48 percent of those arrested.

Summary of Offense and Arrest Trends: 1975 - 1985

The following four tables present statewide data on: (1) the number of Index Offenses, (2) offense rates for Index Offenses, (3) clearance rates for Index Offenses, and (4) the ratio of arrests to offenses for Index Offenses for each year from 1975 through 1985. Each table shows the percent change from 1975 to 1985. Certain adjustments, noted in footnotes to each table, were made in the total Crime Index and property offense categories to make the data comparable from year to year.

The total number of known Index Offenses in Wisconsin was about level for 1975 through 1978, rose from 1978 through 1981, and has been declining since 1981 (see graph, page 12). The number of Index Offenses increased by 4.5 percent for the decade, from 183,135 in 1975 to 192,362 in 1985¹. The increase in offense rates for the decade is less than the increase in number of offenses, because the population of the state increased during this period.

The number of violent offenses increased by 41.7 percent for the decade, from 6,995 in 1975 to 9,912 in 1985. The number of property offenses increased by 3.0 percent for the decade, from 176,140 to 182,450. Thus, violent and property offenses have exhibited very different trends during the past decade, but especially since 1981. This is made clear in the graphs on pages 18 and 24. Among the individual violent offenses, only rape and aggravated assault have actually increased, while murder and robbery have shown declines. Among the property offenses, burglary and motor vehicle theft are down, while theft has increased during the past decade.

Clearance rates declined during the decade for murder and robbery, the two offenses which have declined in volume during the same period. Clearance rates for rape and for aggravated assault have increased. Among the property offenses, the situation is the same: clearance rates have decreased for the two offenses which have decreased in volume, burglary and motor vehicle theft.

Overall, arrest ratios have increased over the past decade, indicating that during this time arrests have increased more rapidly than offenses. However, in terms of specific offenses, this is true only of murder, rape, and theft. For this group of offenses, arrests have increased more rapidly than offenses during the decade. The opposite is true of robbery, aggravated assault, burglary, and motor vehicle theft, for which arrest/offense ratios have decreased.

¹ The numbers used in this section are taken from the four tables that follow. As noted in the footnotes to the tables, the 1985 Total Index and property offense figures include arson data but, since the 1975 data do not include arson, the 1975 to 1985 percent change figures exclude 1985 arson offenses.

NUMBER OF OFFENSES, STATE OF WISCONSIN, 1975-1985

² Arson was not reported as an Index Offense until 1980. In this table arson figures are included in the total Index and Property Offense totals for 1979 through 1985, but they are not reflected in the percent change from 1975 to 1985.

Law Enforcement Officers Killed and Assaulted

The following tables present statewide information on law enforcement officers killed or assaulted during 1985. During 1985, three Wisconsin police officers were feloniously killed while in the performance of their duty.

There were 802 reported assaults on police officers in 1985, a 12 percent increase compared to the 715 reported assaults in 1984. Of the 802 reported assaults, 773 or 96 percent were cleared. Over 65 percent of assaults occurred during the night hours from 8 p.m. through 4 a.m. Injuries resulted from 58 percent of reported assaults, while 91 percent of assaults involved personal weapons (hands, feet or fists) rather than firearms, knives, or other dangerous weapons. Finally, the tables show the assaults reported by type of assignment and type of activity at the time the assault occurred.

Personal Injury by Type of Weapon

	Firearm		Knife		Other		Personal		Total	
	N	%	N	%	N	%	N	%	N	%

Index Offenses by County and Municipality - 1985

Table 1 shows Index Offenses for 1984 and 1985 and percent changes from 1984 to 1985 for each jurisdiction. The four violent Index Offenses are totaled to equal violent crimes, and the four property Index Offenses are totaled to equal property crimes. The Crime Index is the sum of all eight offenses.

In Table 1 the number of months of data reported for each jurisdiction is listed. This information is vital to the interpretation of the table, since the data presented are the reported data at the jurisdiction level, even when fewer than 12 months of data were available. Twelve months of data were reported for 91 percent of the jurisdictions, while 11 months or more were reported for 94 percent of the jurisdictions. Data for jurisdictions reporting less than four months are not printed. Estimates for these jurisdictions are however included in county and state totals (see below). There are six of these jurisdictions in 1985.

Data for a jurisdiction which reported for fewer than 12 months in 1985 cannot be directly compared with that jurisdiction's 1984 data or with data for other jurisdictions. Thus, no percent changes are shown for these jurisdictions. However, an approximate comparison can be made using an estimate of the 12 months total. This estimate can be calculated by multiplying the available data by a correction factor which is obtained by dividing 12 by the number of months reported. (For example if nine months of data are available for an agency, the data can be estimated for 12 months by multiplying the data by 12/9 or 1.33.) However, the accuracy of this approximation diminishes when only a few months of data are available. It should be applied with great caution when less than six months of data are available. This method should also be applied with caution when the number of offenses involved is small. For example, if jurisdiction A had 72 thefts in nine months and prorated them to 96 ($12/9 \times 72 = 96$) thefts for the year, while jurisdiction B had three thefts in nine months and prorated them to four thefts for the year, the estimate for jurisdiction A would be more reliable because it had a higher number of offenses.

The percent change in the number of Index Offenses reported from 1984 to 1985 is shown in Table 1 for each jurisdiction for which it was possible to calculate the change. The percent change is calculated using the formula:

$$\frac{(\text{Offenses in 1985}) - (\text{Offenses in 1984})}{\text{Offenses in 1984}} \times 100 = \text{Percent Change}$$

If the number of offenses for 1984 was zero, no percent change was calculated since percent change cannot be calculated from a zero base. In addition, as stated above, no percent change was calculated for a jurisdiction unless 12 months of data were available for both 1984 and 1985.

Table 1 shows county totals for each offense and percent change from 1984 to 1985. For those counties in which not every jurisdiction reported 12 months of data for 1984 or 1985, the county totals shown are estimates. The estimated county totals were obtained by summing the estimated annual totals for each jurisdiction within the county. These estimated annual totals were obtained as described above, by multiplying the available data by a correction factor for jurisdictions with four months or more of 1985 data. When less than four months of data were present, a different method of estimation was used. For these jurisdictions, the estimate was based on the latest year of complete data, updated based on average change experienced by agencies of similar size. When estimates are used for county totals, the totals are so labelled in Table 1 (e.g., the notation "(EST)" follows the total for Barron County).

At the end of Table 1, statewide totals of reported offenses in each category and estimates of the actual statewide totals are shown. The statewide estimates were obtained by summing the estimated offenses for each jurisdiction.

Table 2 presents offense rates per 100,000 population for Index Offenses for each jurisdiction. The populations shown in this table are from Official Population Estimates for 1985, published by the Demographic Services Center of the Wisconsin Department of Administration. The population shown for each county sheriff's office is the total population of the county minus the populations of any municipalities in the county for which UCR data were reported separately.

The rates shown in Table 2 are derived by taking the number of reported offenses, shown in Table 1, dividing by the population of the jurisdiction, shown in Table 2, and multiplying by 100,000. These rates permit comparisons among jurisdictions of different sizes.

As discussed in connection with Table 1, 12 months of data were available for 91 percent of jurisdictions. Since offense rates based on less than 12 months of data would be misleading, Table 2 presents rates only for those jurisdictions which reported 12 months of data. The countywide and statewide rates shown in Table 2 are based on estimated numbers of offenses when necessary, as described in connection with Table 1.

Table 3 presents total clearance rates by offense and jurisdiction. Note that the 1981 edition of Wisconsin Crime and Arrests showed both total and juvenile-only clearance rates in Table 3. Since then, however, Table 3 has presented only total clearance rates, while clearance rates for juveniles are shown separately in Table 4.

In Table 3, the total clearance rate is the number of clearances, divided by the number of offenses and multiplied by 100. That is, clearances are represented as a percentage of reported offenses. Note that no clearance rate can be calculated for an offense category if there are no 1985 offenses reported, even though clearances may be reported from prior years. When no offenses have been reported, a blank space appears in Table 3. When a clearance rate of zero is shown it means that at least one offense occurred, but that there were no clearances.

Since the clearance rate is the ratio of clearances to reported offenses, it is not particularly sensitive to the problems of missing data described above for Tables 1 and 2. It is reasonable to assume that this ratio would be fairly constant as long as the number of months of data available was reasonably large. Thus, clearance rates have been presented in Table 3 for all jurisdictions for which six months or more of clearance data were present. There were nine jurisdictions reporting fewer than six months of data which were excluded from the table. An asterisk (*) is printed next to the name of each of these jurisdictions.

Countywide and statewide rates shown in Table 3 are based on estimated clearances and offenses, calculated as described above in connection with Table 1. Since county estimates could be misleading if a large proportion of data were missing, they are not printed for those counties in which jurisdictions with less than six months of data make up more than a third of the county population. An asterisk (*) is printed when county estimates are omitted for this reason.

Table 4 presents information on those clearances in which only juveniles were involved. In Table 4, juvenile-only clearances are presented as a percentage of all clearances for each offense. Note that this is different from the definition used in the 1981 edition of Wisconsin Crime and Arrests, when juvenile-only clearances were presented as a percent of offenses. In the reports since 1981, the practice used in Wisconsin Crime and Arrests through 1980 is resumed and juvenile-only clearances are presented as a percent of total clearances. In Table 4, when a clearance rate of zero is shown, it means that there was at least one clearance, but there were no juvenile clearances. When no clearances at all have been reported, a blank space appears in the table. In all other respects, Table 4 is constructed in the same way as Table 3, and all comments regarding Table 3 are relevant to Table 4.

'' INDICATES THAT REPORTS ARE PRESENT FOR FEWER THAN 6 MONTHS

'' INDICATES THAT LESS THAN 6 MONTHS OF CLEARANCE DATA ARE PRESENT FOR JURISDICTIONS THAT REPRESENT MORE THAN 33.3% OF THE TOTAL COUNTY POPULATION

Arrests by County and Municipality - 1985

Tables 5 through 8 present data on adults and juveniles arrested by Wisconsin law enforcement agencies during 1985. The tables present the total number of arrests, the total numbers of Part I and Part II arrests, and the number of arrests for each Part I and Part II offense separately, for each reporting agency. Information on adults is presented in Tables 5 and 7, information on juveniles in Tables 6 and 8.

As indicated in the introduction to this report, data are not available for all 12 months of 1985 for every reporting agency. In the following tables, as in Tables 1 through 4, the number of months of data available for each reporting agency is listed. Although only the known data are presented for each jurisdiction, an estimated yearly total can be calculated for any jurisdiction with less than 12 months of data reported. The estimated totals can be calculated by multiplying the number in the table by a correction factor which can be obtained by dividing 12 by the number of months of data reported. (Thus, if 11 months of data are presented for an agency, for example, the agency's figures should be multiplied by 12/11, or 1.09). Naturally, the more months of data reported, the more accurate will be the yearly estimates. Estimates based on a small number of months of reported data should be interpreted cautiously.

The following tables show, for each county, county total arrests for each offense. For those counties in which not every jurisdiction reported 12 months of data for 1985, the county totals shown are estimates. These estimates were obtained as in Table 1, by calculating and summing the estimated annual total for each jurisdiction within the county. As in previous table, when estimates are used for county totals, the notation "(EST)" follows the "County Total" label.

At the end of each table there are statewide totals of the reported arrests in each category and estimates of the actual statewide totals. The estimated totals were obtained by calculating the estimated yearly totals, as described above, for each reporting agency with less than 12 months of data and summing the estimates for these agencies and the reported figures for the other agencies.

These tables also contain population figures for each jurisdiction. Tables 5 and 7 contain adult population figures. Tables 6 and 8 contain juvenile population figures. These adult and juvenile figures were derived from the 1985 Department of Administration (DOA) population estimates, Official Population Estimates for 1985, using adult and juvenile population proportions provided in the 1980 census and updated with 1983 DOA estimates. The population figures presented for county sheriffs' offices are the county populations minus the populations of any municipalities in the county for which UCR data are reported separately. These figures can be used to calculate arrest rates for any of the jurisdictions in the State. Arrest rates are calculated by dividing the number of arrests by the relevant population and multiplying the quotient by 100,000. This rate per 100,000 is comparable across jurisdictions of varying sizes.

Statewide Arrests, by Offense

The first and second of the following tables present statewide data on adult and juvenile arrests in Wisconsin during 1985. The tables are listings of the UCR adult and juvenile arrest forms that are submitted by law enforcement agencies each month. As such, they show the total number of adult and juvenile arrests for each offense by sex, age, and race. Like other state and county level data presented in this report, these tables present estimated totals. Note that the statewide arrests in the 1981 Wisconsin Crime and Arrests report showed actual reported data, rather than estimates. In order to make comparisons between these tables and the analogous tables from the 1981 report, the 1981 data must first be adjusted, as described in the 1981 report.

Note that the state total in these listings differs slightly from the corresponding totals shown in Tables 5 through 8. This is because of small differences in the procedure used to make estimates of missing data in the two types of tables.

Statewide Supplementary Offense Information

The third table, Property Stolen by Classification, presents further detail on robbery, burglary, theft, and motor vehicle theft. In addition, the monetary value of any property stolen in connection with any Index Offense is presented. Aggravated assault does not appear in this table since, if property is stolen in the course of an aggravated assault, the offense is then classified as a robbery. The fourth table, Property Stolen and Recovered by Type of Property, shows the monetary value of property both stolen and recovered by category of property.

Number of Full Time Law Enforcement Employees in Wisconsin as of 1 October 1985

The data in this table come from a yearly survey conducted each fall by the FBI. For every jurisdiction, it shows the number of sworn law enforcement employees, the number of civilian employees, and the total number of employees for every UCR jurisdiction. In addition, the table lists the total population for each jurisdiction, and both the number of law enforcement employees and the total number of employees per 1,000 population.

GLOSSARY

ADULT: A person 18 years of age or older.

ARREST: Taking into physical or other legal custody for commission of an offense in the local reporting jurisdiction. An arrest has occurred when a law enforcement officer detains a person with the intention of seeking charges against them for a specific offense and a record is made of the detention (see p. 60, Uniform Crime Reporting Handbook). Arrests for all criminal offenses are scored. Arrests for ordinance violations are included. Arrests for traffic offenses, with the exception of driving under the influence of intoxicants, are not scored. Included are those persons released without having been formally charged. (See Juvenile Arrest.)

ARREST RATE: The number of arrests for a particular offense, or group of offenses, per 100,000 population. The formula is:

$$\frac{\text{Number of Arrests}}{\text{Population}} \times 100,000$$

Arrest rates per population unit are employed to remove the effects of differing sizes of law enforcement service areas, permitting the examination of arrest on an equalized population basis. "Per 100,000 population" is generally utilized to preclude rates for infrequently occurring arrests from being expressed as unmeaningfully small numbers.

CLEARANCE: An offense is cleared, or solved for crime reporting purposes, when at least one person is arrested, charged with commission of the offense and turned over to the court for prosecution. Provision is also made for clearance in certain "exceptional" situations (see p. 42, Uniform Crime Reporting Handbook).

CLEARANCE RATE (TOTAL): The number of clearances divided by the total number of offenses, expressed as a percent. The formula is:

$$\frac{\text{Number of Clearances}}{\text{Number of Offenses}} \times 100\%$$

Offenses are reported as they become known to law enforcement agencies. Clearances are scored as they are made. Therefore, it is possible for the clearance rate to exceed 100 percent for a time period. Both clearances by arrest and exceptional clearances are included.

CRIME FACTORS: Historically, the causes and origins of crime have been the subjects of investigation by many disciplines. No definitive conclusions have yet been reached; many factors affect the volume and type of crime that occurs from place to place. Caution should, therefore, be exercised in comparing statistical data of individual communities or counties solely on the basis of their populations.

More appropriate use can be made of the statistics by relating the experience of a particular area to group averages, or by employing a ranking procedure, and encompassing both crime and other socio-economic information.

CRIME INDEX: The total of eight serious offenses used as an indicator of crime. Crime Index offenses are murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault, burglary, theft, motor vehicle theft and arson. The first four of these are referred to as violent crimes, and the latter four as property crimes. Definitions of each of these offenses are given in the section "Statewide Index Offenses and Arrests."

JUVENILE: A person 17 years of age or younger.

JUVENILE ARREST: For purposes of Uniform Crime Reporting, a juvenile should be counted as "arrested" when the circumstances are such that if he or she were an adult, an arrest would be tallied (see Uniform Crime Reporting Manual, p. 60). All violations by juveniles where some police or other official action is taken beyond a mere admonishment, including status offenses, are included. Law enforcement contacts with juveniles where no offense has been committed are not scored as arrests. Juveniles taken into custody for their own protection, such as in neglect cases, are not scored as being arrested if they have not committed an offense. (See Arrest.)

JUVENILE CRIME: Two different measures are available through Uniform Crime Reporting. They are juvenile arrests (number, rate, and percentage of total arrests), and juvenile involvement in clearances (juvenile clearance rate).

JUVENILE INVOLVEMENT IN CLEARANCES: The percent of clearances for a given offense involving only juveniles (see Table 4). The formula is:

$$\frac{\text{Number of Clearances Involving only Juveniles}}{\text{Total number of clearances}} \times 100$$

OFFENSE RATE: The number of known offenses per 100,000 population. The formula is:

$$\frac{\text{Number of Offenses}}{\text{Population}} \times 100,000$$

Offense rates per population unit are employed to remove the effect of differing sizes of law enforcement service areas, permitting the examination of reported crime on an equalized population basis. "Per 100,000 population" is generally utilized to preclude the rates for infrequently occurring offenses from being expressed as unmeaningfully small numbers.

More sophisticated crime or victimization rate measures may also be utilized, such as residential burglaries per 100,000 residences, motor vehicle thefts per 100,000 registered vehicles, or forcible rapes per 100,000 females in typically victimized age groups.

PERCENT CHANGE: The formula is:

$$\frac{\text{Value in Current Period} - \text{Value in Base Period}}{\text{Value in Base Period}} \times 100\%$$

POPULATION: Totals as well as juvenile and adult sub-totals are based on Official Population Estimates for 1985, Wisconsin Department of Administration, Demographic Services Center.
